

uLab™ Clear Aligner System

Designed Exclusively for Orthodontists

We believe that **your expertise is critical** when treating patients and you deserve the tools to **bring your vision to life**. We developed a comprehensive treatment planning and aligner system so you can **design the perfect smile** for your patients. Discover the many ways uLab™ puts you back in control:

Save Time – AI helps you design your treatment plan in as few as 10 minutes. Same day starts possible.

Save on Lab Fees

Control the Treatment – Designed to eliminate the frustrating back-and-forth with a remote tech and to catch deviations early.

SmoothStart Training – Free one-on-one training and case reviews tailored to meet **your** schedule and **your** needs.
